

CPSA Certified Professional for Software Architecture®

The international Software Architecture Qualification Board ([iSAQB](#)) defines curricula on several levels for software architects. You can find download links in the following sections.

The **Foundation Level** curriculum is currently maintained and published in both English (EN) and German (DE). Maintainers from the Foundation-Level-Working-Group and voluntary reviewers collaborate on [Github](#) to improve the curriculum.

A **glossary** of the terminology used in the iSAQB curricula can be found as a (freely available) ebook, published on [Leanpub](#)

Available Versions

Version 5.0 (released September 1st 2019)

Version 4.x (released 2017)

The current productive version (aka: relevant for examinations) is version 4.1 (EN) and 4.2 (DE), both of which are currently only available via the official [iSAQB website](#).

Versions 3 and prior

iSAQB does not maintain a repository of older versions. Upon request we can provide previous versions, you may volunteer to update this repository accordingly. Thank you
