CPSA Certified Professional for Software Architecture®

The international Software Architecture Qualification Board (iSAQB) defines curricula on several levels for software architects. You can find download links in the following sections.

The **Foundation Level** curriculum is currently maintained and published in both English (EN) and German (DE). Maintainers from the Foundation-Level-Working-Group and voluntary reviewers collaborate on Github to improve the curriculum.

A **glossary** of the terminology used in the iSAQB curricula can be found as a (freely available) ebook, published on Leanpub

Available Versions

Version 2021.1 (released February 26th, 2021 | valid from April 1st, 2021)

Status

[CI] `last commit today` `contributors 11` `issues 17 open` `issues 193 closed`
