CPSA Certified Professional for Software Architecture®

The international Software Architecture Qualification Board (iSAQB) defines curricula on several levels for software architects. You can find download links in the following sections.

The **Foundation Level** curriculum is currently maintained and published in both English (EN) and German (DE). Maintainers from the Foundation-Level-Working-Group and voluntary reviewers collaborate on Github to improve the curriculum.

A **glossary** of the terminology used in the iSAQB curricula can be found as a (freely available) ebook, published on Leanpub

Available Versions

Version 2019.2 (released December 2019, formerly known as V5.1)
